## Professional Summary

Dynamic and results-driven Computer Science Engineering professional with good problem-solving and communication skills. Highly adaptable and quick to learn, I thrive in collaborative environments, contributing effectively to team success and project goals. With a commitment to excellence and continuous growth, I am committed to deliver solutions and drive meaningful results.

## Education

**Chitkara University, Baddi, H.P**
Bachelor of Engineering in Computer Science                              June 2021 – August 2025

## Projects

**Chatting Application**

- Developed a real-time messaging app using React, Node.js, Express.js, and Socket.io.

- Implemented secure user authentication, authorization, and live chat functionality.

**Travel Buddy (Cross-Platform App + Web)**

- Built a travel planner using React Native and MERN Stack, integrated with Google Gemini API.

- Features include Auth0 login, dynamic trip planning, and AI-based itinerary generation.

**BlogsMaker**

- Created a full-stack blogging app with Node.js, Express.js, and EJS templates.

- Implemented full CRUD functionality for user-generated blog content.

## Skills

- **Programming Languages:** Java, JavaScript, Python

- **Development:**

  - **Frontend:** ReactJS, React Native, NextJS, Tailwind CSS
  - **Backend:** NodeJS, Express.js, J2EE, Django

- **Databases:** MongoDB, PostgreSQL, MySQL

- **Testing:** JUnit(Java), Jest(JavaScript and TypeScript), RTL(React Testing Library)

- **Others:** Git, GitHub, Postman, Firebase, REST APIs, FastAPI, AWS (S3, CloudFront)

# Other Involvements

**Sports Head, CU-Arcs**
Organized campus-wide sports events and represented the university football team in inter-university competitions.

**Event Head, Accommodation Lead – North Zone 2022**
Managed logistics for team accommodations and streamlined match day operations during zonal-level volleyball tournaments.
